

SAFe® 4.0 for Teams

For onsite delivery as part of a real-world Agile Release Train

About the Course

This two-day course teaches teams who are part of an Agile Release Train (ART) how to work in an Agile environment using Scrum, Kanban, and XP. The teams will learn how to become Agile Teams, build their backlog, and plan and execute iterations. Agile teams learn about their ART and their role in it, planning, executing, and improving with other teams. This class prepares teams to run a Program Increment (PI), including all meetings at the Team and Program level with a specific focus on the upcoming PI planning.

Attending the class prepares participants to take the exam and become a certified *SAFe® Practitioner (SP)*.

Audience

The following individuals will benefit from this course:

- All stakeholders of an Agile Release Train at the beginning of its SAFe journey
